Good morning and welcome to the June 2019 edition of Dental Health Services Library Newsletter.

I sincerely hope everyone is dry, snug and warm, wherever you may be….we all need a beanbag or comfy couch and blanket in a corner (preferably with something interesting to read) at the moment, don’t we?

The Library will be closed for borrowing from 16 – 18 July inclusive… I am taking Long Service Leave, with my last day being 15 July. Sophie Cartmall, who is learning the ins and outs of the Dental Health Services Library as we speak, is due to take over the reins on 19 July. Please don’t hesitate to contact Sophie with any requests or questions you may have.

With the school term coming to an end shortly, please be aware of due return dates for your loaned item(s); if your item is due during the break (and you will not be contactable at your usual work location) either phone/email/fax the library to renew/return item before due date.

Heather
A/Library Administration Officer

This updated 4th Edition’s highly visual, step-by-step guide takes dental hygienists-in-training through the process of patient assessment, emphasizing both the actual physical assessment and the human interaction involved. It includes four chapters on communication (including an all-new motivational interviewing chapter), as well as unique Human Element sections that include real-life experiences shared by patients, students, and clinicians.

Written by sedation expert Stanley Malamed, DDS, this concise guide combines essential theory with "how-to" technical instruction to help you master basic techniques in dental sedation and anxiety control. There is also detailed discussion on how to modify typical treatment protocol to successfully treat different patient populations — including pediatric, geriatric, physically compromised, and medically compromised patients.
Microsurgery in endodontics / Kim, Syngcuk; Kratchman, Samuel (Associate editors: Karabucak, Bekir; Kohli, Meetu; Setzer, Frank). John Wiley & Sons Inc. Hoboken. 2018. 231 pp. WU 230. 401004851

This text provides the definitive reference to endodontic microsurgery, with instructive photographs and illustrations.

- Provides a definitive reference work on endodontic microsurgery
- Includes contributions from pioneers and innovators in the field of microsurgical endodontics
- Describes techniques for a wide range of microsurgical procedures
- Includes more than 600 instructive illustrations and photographs

Organized by type of lesion, mass, or disease, each pathologic entity presented in this text includes the nature of the disease; its predilections, clinical features, radiographic presentation, differential diagnosis, and microscopic features; and the suggested course of action for the dental practitioner as well as the standard treatment regimen.

This proven “work text” includes over 4,500 questions to help you learn the medical terminology you need to communicate successfully in the healthcare world. Anatomy and physiology coverage at the beginning of each chapter includes essential structures and functions and detailed, full-color illustrations that show the body system’s key organs. Each chapter alternates between term presentation and exercises so you can apply what you’ve learned immediately.

Mosby’s orthodontic review / English, Jeryl D; Akyalcin, Sercan; Peltomaki, Timo; Litschel, Kate. Elsevier. Missouri. 2015. 2e. 355 pp. WU 400. 401004843

This comprehensive resource offers a concise review of orthodontic concepts, diagnosis, treatment planning, and clinical treatment — all in a question-and-answer format that is ideal for clinical practice. Plus, clinical case reports allow you to apply your knowledge to real patient scenarios. This is the only review book designed specifically for orthodontics, making it a must-have for students, residents, general dentists, and orthodontists.

From patient evaluation, treatment planning, and product selection to techniques, managing complications, and marketing the service, this text provides a complete resource for using these techniques in practice. Coverage encompasses facial anatomy, neurotoxins, cosmetic fillers, hyaluronic acid dermal fillers, calcium hydroxyapatite injectable filler, pearls and pitfalls, and how to build your practice.

Comprehensive in scope, this text presents orthognathic surgery from an aesthetic perspective, encompassing analysis, diagnosis, treatment, 3D virtual planning, and adjunctive procedures.

Current scientific studies show that most people with type 2 diabetes can reverse the disease by eating a plant-based diet and making other healthy lifestyle changes. This text provides a blueprint for what to eat to defeat diabetes and offers 100 quick-and-easy recipes that are delicious and satisfying. This text, outlines an action plan for including more foods that help regulate blood glucose levels and avoiding foods that send those levels skyrocketing. It clarifies why not all carbohydrates promote diabetes, explains how plant-based protein reduces diabetes risk, and illustrates why a whole-foods plant-based is naturally low in fat and sodium.

This text examines the latest developments in online business with cutting-edge coverage, real examples, actual business cases, and hands-on applications. With comprehensive coverage of emerging strategies and today's most important technologies, this popular book equips you with a solid understanding of the dynamics of this fast-paced industry.

A selection of library e-Books available via our DHS Online Library site

(instructions for access on following page)

- Cleft lip and palate treatment: a comprehensive guide
- Craniofacial disorders orofacial features and peculiarities in dental treatment
- Glossary of dental Implantology
- Waxing for dental students
- Journal of Prosthodontics on complete and removable dentures
- Journal of Prosthodontics on complex restorations
- Dental Morphology for Anthropology: an illustrated manual
- Essentials of human disease in dentistry
- Restoring with flowables
- Biocompatibility of dental biomaterials
- Diagnostic imaging: oral and maxillofacial e-Book
- Pharmacology and Therapeutics for Dentistry
- Pediatric Dentistry
- Antibiotics and Antiseptics in Periodontal Therapy
- Topics in Dental Biochemistry
- Orthodontics
- Clinical Outline of Oral Pathology
- Integrated Clinical Orthodontics
- Implants in Clinical Dentistry
- Implant Dentistry at a Glance
- Fluoride and the Oral Environment
- Improving Access to Oral Health Care for Vulnerable and Underserved Populations
- Clinical Textbook of Dental Hygiene and Therapy
- Atlas of Oral Implantology
- Problem Solving in Endodontics
- Treatment of Periodontal Disease
- Orthodontics
- How to Succeed at eLearning
- Behavior Management in Dentistry for Children
- Behavioral Dentistry
- Basic Guide to Medical Emergencies in the Dental Practice
- Clinician's Guide to the Diagnosis and Management of Tooth Sensitivity
- Dental Nursing
- Bell's Oral and Facial Pain
- Clinician's Guide to the Diagnosis and Management of Tooth Sensitivity
- Mineralized Tissues in Oral and Craniofacial Science: Biological Principles and Clinical Correlates
- Endodontic Pain: Diagnosis, Causes, Prevention and Treatment
- Dental Fear and Anxiety in Pediatric Patients: Practical Strategies to help children cope
- Basic Guide to Oral and Maxillofacial Surgery
- Clinical Oral Anatomy: A Comprehensive Review for Dental Practitioners and Researchers
- Diagnosing Dental and Orofacial Pain: A Clinical Manual
- Dental Public Health: A Primer
- Avoiding and Treating Dental Complications: Best Practices in Dentistry
- Craniofacial and Dental Developmental Defects: Diagnosis and Management
- The Dental Pulp: Biology, Pathology, and Regenerative Therapies

**e-Books** are available through our website

An "eBook" or "electronic book" is a digital version of a book. It can be downloaded to a computer, desktop, laptop or Tablet PC or in some cases, to a PDA device. Different readers may be required depending on the e-book format.
How to access an eBook when off-site.

To download a book title; firstly enter website via: https://dohlibrary.health.wa.gov.au/dental, then select:

**Books and AV Resources**

Select E-Books from the dropdown box - our list of e-books will be displayed.

View the list and select your title. i.e. The Fearful Dental Patient.

The e-book cover will be displayed (contd. next page).
Click the title under the Table of Contents i.e. The Fearful Dental Patient.

The e-book’s first page will be displayed

Use the forward and back arrows or the side slide to turn your page or jump pages. (contd. next page)
Your page will be displayed:

Using the side menu you can print, save or even email pages.
Now available in the Library:

Guillotine (in-house use only)

Spiral Binder (in-house use only)

Projector; Projector screen; Bluetooth speaker; DVD external hard drive (available to borrow)

Intra-Oral photographic mirrors (available to borrow)

Intraoral Mirrors are titanium plated, front surface glass mirrors. Front surface coating ensures that there are no double or "ghost images". Rear surface mirrors give you a reflected image as well as a "ghost image" reflected off the glass. The mirrors reflect the light from the flash to fully illuminate the field being photographed.

The Library book-swap and DVD exchange

Why not try our book-swap service situated in the library. Clean out all those items at work/home taking up space and collecting dust…. send or bring them into us! Next time you pass by the Library have a look at what might catch your eye to swap.

YES.....IT'S YOURS TO BROWSE, MAKE A SELECTION OR SWAP FOR SOMETHING MORE TO YOUR LIKING!
Library cards (no longer distributed):

As part of the electronic library upgrade the library will no longer produce library cards.
If you have not registered for the library and would like to, complete the form below and email to us.
Alternatively, if you have registered for the library and do not know your borrowing number contact the library and this will be emailed to you.

Below is the New Borrowers Registration Form, also available on the DHS Website.

The world of work is in a constant state of flux. This item is an essential guide to maintaining resilience in this ever-changing environment, whether you are working in a turbulent field, navigating the job market or simply trying to realise your career ambitions.

Based on the author’s own experience of working under extreme circumstances in post-earthquake Christchurch, New Zealand and enhanced by collaboration with leading resilience experts from around the world, this book is packed with stories, resources and personal coaching to support you in your endeavours.

Library feedback

Do you have a suggestion for library purchases or any other information that would benefit the service to all library users?

Email us on library@dental.health.wa.gov.au

We would really appreciate your input into your library.
How can I access the Library electronically at work?

- Open the DHS home page
- Select Library online
- Enter your he number and password
- The Library guide will open
- From the blue menu make your selection

How can I access the Library electronically at home?

- Save this link to your favourites for future use
- Enter your he number and password
- The Library guide will open
- From the blue menu make your selection

How can I borrow a book?

1) Email the Library library@dental.health.wa.gov.au with your:
   - 1) Name: Julie Jones-Smith
   - 2) Borrower’s card number: i.e. 101000020
     (Forgotten this number? Email the library)
   - 3) The item’s barcode: i.e. 601000355

Barcodes for all items can be located:

a) Bottom right hand corner of a book,
“How can I borrow a Book” continued…..

b) Inside cover of the CD or DVD e.g. 601000355

c) Or using the Online Library catalogue:

Online Library Guide, textbook/audiovisual catalogue titles

- Scroll down to Select your catalogue
- Select the PDF catalogue you wish to open
- Select your title
- Copy this information into an email
Audio Visual Resources

This link will include all the library audio visual resources and a short review of each, available in the one document.

It is available in the Library online website -> Books and A/V resources ->

The pamphlet is available in a PDF format to either view online or print.

To loan simply email the library with your borrowers number and the barcode of the audio visual item you wish to loan.

The resource will be sent to you by return mail including return postage instructions and packaging.
MIMS, Therapeutic Guidelines and Australian Medicines Handbook and the Australian Schedule of Dental Services and Glossary

The paper format of MIMS is no longer available to staff. However the online version is available via the Library online under Drug Information. Also available are the Therapeutic Guidelines and the Australian Medicines handbook.

Under Mobile Resources, you can also purchase MIMS for your smartphone from MIMS.

Want an even faster Drug Reference access point without having to access the Library site?
Mobile access

What is a mobile site?
A mobile (web) site has been optimised for viewing by a mobile device. It usually has a "stripped down" appearance to make it quicker to download and easier to view on a smaller screen. Mobile sites can be accessed from any mobile web browser regardless of the type of device.

What is a mobile resource?
A mobile resource is any resource such as a journal database or point-of-care tool that can be accessed by a mobile device. The resource may or may not have been optimised for viewing on your mobile platform as it may be device or operating system dependent - for example, a resource may be available only as an iPhone app.

This guide is designed to provide an introduction to WA DoH library content, resources and applications that can be accessed using mobile devices such as PDAs, Palm Pilots, Blackberrys and iPads/iPhones.
For the most part, mobile devices that support web browsing can be used to access online library resources, however some have special features that make viewing easier on a portable device.

Important notes:
For technical information and support for your mobile device please consult your manual.
Mobile access is not free access. While some products include mobile access as part of the Library's ongoing subscription, some products such as MIMS, will require additional individual expense to enable mobile access.
All internet-enabled devices can access the library pages and resources, but not all resources are optimised for viewing on a mobile device and some of the features may not be available via your mobile device.
Some resource links will send you directly to a specially developed mobile site, while others will send you to applications to download.
Subscription resources often require that you first register yourself and/or your device.

Remember you can also purchase MIMS for your smart phone.

Need help with anything in the Library?

Contact us. We are here happy to help!
**Electronic library access presentation**

Want to know something about our electronic library and are too scared to ask?

Want to be part of a group all learning about this together?

Need to fill in an area meeting space?

*Call the Library for an informative electronic access presentation, we are happy to help*
