Hello and welcome to the July 2019 edition of Dental Health Services Library Newsletter.

We have a new email address for the Library, please send all correspondence to the new email address and not previous email addresses as I may not be able to access your request:-

DHS.Library@health.wa.gov.au

Please note that the terms of borrowing for the Library are 4 books at one time.

Dental Trauma Guide on our online Library is working now (we did have a technical glitch). Please let us know if you have any issues with this site. Please also check out three new e-Books online:-

- Titanium in Medical and Dental applications
- ADA Dental Drug Handbook : A Quick Reference
- Clinical Cases in Dental Hygiene

Please if you have any suggestions of new items for purchase and you feel it will benefit the library your input is much appreciated.

We have had some lovely rain this month and the azalea’s & camellia’s outside of the Library are flowering, so spring is around the corner.

Sophie

A/Library Administration Officer
What’s new for you to enjoy? (you may borrow 4 items for 4 weeks)

New frontiers of biostatistics and bioinformatics/ Zhao, Yichuan; Chen, Ding-Geng Editors. Springer. Switzerland. 2018. 463 pp. WA 950. 401004912

This text is comprised of presentations delivered at the 5th Workshop on Biostatistics and Bioinformatics held in Atlanta on May 5-7, 2017. Featuring twenty-two selected papers from the workshop, this book showcases the most current advances in the field, presenting new methods, theories, and case applications at the frontiers of biostatistics, bioinformatics, and interdisciplinary areas.

Little monsters, it’s time to go to bed / Longray, Olivia. Self Published. Columbia USA. 2018. 28 pp. WU 113.6. 401004919

Do your kids not like to brush their teeth or go to bed? Neither do little bacteria monsters! They live in the mouths of adults and children and they like to play all day and all night. How can you put them to bed and put things in order in your mouth? This bedtime story will introduce your children to amazing creatures that are so easy to make friends with. You’ll learn to put the monsters to sleep with a toothbrush, dental floss and affectionate words.
**Gene eating ; the science of obesity and the truth about diets / Yeo, Giles. Orion. Publishing. Great Britain. 2018. 352 pp. QU 145. 401004913**

The anti-diet diet book by University of Cambridge geneticist, Dr Giles Yeo. In an age of misinformation and pseudo-science, the world is getting fatter and the diet makers are getting richer. So how do we break this cycle that’s killing us all?

**They’ll be OK: 15 conversations to help your child through troubled times / Smart, Collett. Hachette. Australia. 2019. 276 pp. BF 637. 401004914**

Teens and tweens are struggling with social media, relationships, and so much of what modern life is throwing at them. It’s impossible for parents to be experts on all the new challenges their children are facing. That’s why it’s essential to turn to a real expert. The author is a psychologist, teacher, lecturer, writer - and a mum of three. She knows that it is crucial for parents to discuss uncomfortable, yet fundamentally important topics with their children - and this book tells parents why and how. If you’re a parent who feels like you just don’t know how to talk to your children about some of these difficult topics, this book has all the tools you need.

This wide-ranging and authoritative dictionary contains over 7,100 entries covering all areas of business and management, including marketing, organizational behaviour, business strategy, law, and taxation. In its sixth edition, it features the very latest developments, such as those relating to information technology (including mobile technology), and the financial crisis and the subsequent sovereign debt crisis. This A–Z reference work is essential for business students, teachers and professionals, and useful for anyone needing a guide to business terminology.

The aim of this book is to present the Scandinavian treatment philosophy of removable prosthetics in which biology and function have priority over the more technical approach favoured by others. The Scandinavian treatment philosophy is largely based on periodontal and clinical prosthetic research, which has demonstrated that the critical factor in tooth and abutment survival is establishing and maintaining good periodontal health by plaque control, not by trying to reduce or distribute widely mechanical loading. This textbook covers the need for dental students to acquire adequate knowledge and clinical skills within this field.
People and change in indigenous Australia / Austin-Broos, Diane; Merlan, Francesca (Editors). University of Hawai'i press. Honolulu. 2018. 208 pp. GN 665. 401004924

This text arose from a conviction that more needs to be done in anthropology to give a fuller sense of the changing lives and circumstances of Australian indigenous communities and people. The essays explore dimensions of change and continuity in childhood experience and socialization in a desert community; the influence of Christianity in fostering both individuation and relatedness in northeast Arnhem Land; the diaspora of Central Australian Warlpiri people to cities and the forms of life and livelihood they make there; adolescent experiences of schooling away from home communities; youth in kin-based heavy metal gangs con guring new identities, and indigenous people of southeast Australia re ecting on whether an “Aboriginal way” can be sustained.

This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition.

On the morning that the long awaited circus arrives in Harry’s town, he gets some unwelcome visitors, the dreaded plaque bugs. Fearing that he will miss the circus, Harry rushes to the dentist for help. Realizing he is in over his head, the dentist calls on the Plaque Pixie to save the day... but will there be time?

Hemostasis in dentistry / Szumita, Richard P; Szumita, Paul M (editors). Springer. Switzerland. 2018. 204 pp. WU 140. 401004931

This book offers a thorough, clinically oriented review of hemostasis and its impact on the practice of dentistry. Readers will gain a sound understanding of the pathophysiology of hemostasis and the pharmacology of antithrombotic and prothrombotic medications. Perioperative dental management strategies of value in patients with different congenital and acquired disorders of hemostasis are carefully explained, and the role of surgical techniques and local and topical agents in helping to minimize and control bleeding is described. Helpful instruction is also provided on the indications for antithrombotic medications and the management of patients receiving such therapy, including the risks of altering medications.

A selection of library e-Books available via our DHS Online Library site
(instructions for access on following page)

- Cleft lip and palate treatment: a comprehensive guide
- Craniofacial disorders orofacial features and peculiarities in dental treatment
- Glossary of dental Implantology
- Waxing for dental students
- Journal of Prosthodontics on complete and removable dentures
- Journal of Prosthodontics on complex restorations
- Dental Morphology for Anthropology: an illustrated manual
- Essentials of human disease in dentistry
- Restoring with flowables
- Biocompatibility of dental biomaterials
- Diagnostic imaging: oral and maxillofacial e-Book
- Pharmacology and Therapeutics for Dentistry
- Pediatric Dentistry
- Antibiotics and Antiseptics in Periodontal Therapy
- Topics in Dental Biochemistry
- Orthodontics
- Clinical Outline of Oral Pathology
- Integrated Clinical Orthodontics
- Implants in Clinical Dentistry
- Implant Dentistry at a Glance
- Fluoride and the Oral Environment
- Improving Access to Oral Health Care for Vulnerable and Underserved Populations
- Clinical Textbook of Dental Hygiene and Therapy
- Atlas of Oral Implantology
- Problem Solving in Endodontics
- Treatment of Periodontal Disease
- Orthodontics
- How to Succeed at eLearning
- Behavior Management in Dentistry for Children
- Behavioral Dentistry
- Basic Guide to Medical Emergencies in the Dental Practice
- Clinician's Guide to the Diagnosis and Management of Tooth Sensitivity
- Dental Nursing
- Bell's Oral and Facial Pain
- Clinician's Guide to the Diagnosis and Management of Tooth Sensitivity
- Mineralized Tissues in Oral and Craniofacial Science: Biological Principles and Clinical Correlates
- Endodontic Pain: Diagnosis, Causes, Prevention and Treatment
- Dental Fear and Anxiety in Pediatric Patients: Practical Strategies to help children cope
- Basic Guide to Oral and Maxillofacial Surgery
- Clinical Oral Anatomy: A Comprehensive Review for Dental Practitioners and Researchers
- Diagnosing Dental and Orofacial Pain: A Clinical Manual
- Dental Public Health: A Primer
- Avoiding and Treating Dental Complications: Best Practices in Dentistry
- Craniofacial and Dental Developmental Defects: Diagnosis and Management
- The Dental Pulp: Biology, Pathology, and Regenerative Therapies

e-Books are available through our website

An "eBook" or "electronic book" is a digital version of a book. It can be downloaded to a computer, desktop, laptop or Tablet PC or in some cases, to a PDA device. Different readers may be required depending on the e-book format.
How to access an eBook when off-site.

To download a book title; firstly enter website via:
https://dohlibrary.health.wa.gov.au/dental , then select:

**Books and AV Resources**

Select E-Books from the dropdown box - our list of e-books will be displayed.

View the list and select your title. i.e. **The Fearful Dental Patient**.

The e-book cover will be displayed (contd. next page).
Click the title under the Table of Contents i.e. The Fearful Dental Patient.

The e-book’s first page will be displayed

Use the forward and back arrows or the side slide to turn your page or jump pages.
(contd. next page)
Your page will be displayed:

Using the side menu you can print, save or even email pages.
Now available in the Library:

Guillotine  (in-house use only)

Spiral Binder (in-house use only)

Projector; Projector screen; Bluetooth speaker; DVD external hard drive (available to borrow)

Intra-Oral photographic mirrors (available to borrow)

Intraoral Mirrors are titanium plated, front surface glass mirrors. Front surface coating ensures that there are no double or "ghost images". Rear surface mirrors give you a reflected image as well as a "ghost image" reflected off the glass. The mirrors reflect the light from the flash to fully illuminate the field being photographed.

The Library book-swap and DVD exchange

Why not try our book-swap service situated in the library. Clean out all those items at work/home taking up space and collecting dust…. send or bring them into us! Next time you pass by the Library have a look at what might catch your eye to swap.

YES…..IT’S YOURS TO BROWSE, MAKE A SELECTION OR SWAP FOR SOMETHING MORE TO YOUR LIKING!
Library cards (no longer distributed):

As part of the electronic library upgrade the library will no longer produce library cards.

If you have not registered for the library and would like to, complete the form below and email to us.

Alternatively, if you have registered for the library and do not know your borrowing number contact the library and this will be emailed to you.

Below is the New Borrowers Registration Form, also available on the DHS Website.
Librarian's choice

This book offers up-to-date, readily understandable guidance on the materials and equipment employed in digital restorative dentistry and on the specific clinical procedures that may be performed using the new technologies. The key components of digital restorative dentistry – image acquisition, prosthetic/restorative design, and fabrication – are fully addressed. Readers will find helpful information on scanners, the software for prosthetic design, and the materials and technologies for prosthesis fabrication, including laser sintering, 3D printing, CAD/CAM, and laser ablation. The section on clinical procedures explains all aspects of the use of digital technologies in the treatment of patients requiring removable partial dentures, complete dentures, fixed partial prostheses, crowns, endodontics, and implant surgery and prosthodontics.

Library feedback

Do you have a suggestion for library purchases or any other information that would benefit the service to all library users?

Email us on DHS.Library@health.wa.gov.au

We would really appreciate your input into your library.
How can I access the Library electronically at work?

- Open the DHS home page
- Select Library online
- Enter your he number and password
- The Library guide will open
- From the blue menu make your selection

How can I access the Library electronically at home?

- Save this link to your favourites for future use
- Enter your he number and password
- The Library guide will open
- From the blue menu make your selection

How can I borrow a book?

1) Email the Library DHS.Library@health.wa.gov.au with your:

   1) **Name:** Julie Jones-Smith

   2) **Borrower’s card number:** i.e. 101000020
      (Forgotten this number? Email the library)

   3) **The item’s barcode:** i.e. 601000355

**Barcodes** for all items can be located:
a) Bottom right hand corner of a book,

“How can I borrow a Book” continued….

b) Inside cover of the CD or DVD e.g. 601000355

c) Or using the Online Library catalogue:

Online Library Guide, textbook/audiovisual catalogue titles

- Scroll down to Select your catalogue
- Select the PDF catalogue you wish to open
- Select your title
- Copy this information into an email
Audio Visual Resources

This link will include all the library audio visual resources and a short review of each, available in the one document.

It is available in the Library online website. > Books and A/V resources >

The pamphlet is available in a PDF format to either view online or print.

To loan simply email the library with your borrowers number and the barcode of the audio visual item you wish to loan.

**DVD 1 Waterlase Dentistry**

Your patient should know how much you have invested in their comfort and treatment with your Waterlase. And they will, with this DVD.

**DVD 2 The Secret: Byrne, Rhonda. 2006. running time 91 mins. 601000096.**

In this book/DVD all the pieces of The Secret will come together. You'll begin to understand the hidden, untapped power that's within you. By applying the knowledge of The Secret, you will be able to overcome obstacles and achieve what many would regard as impossible.

**DVD 3: Anaesthesia administration**
Malamed, Stanley F. 2006. running time 97 mins. 601000102.

An easy and time-saving way to stay up to date on the latest in local anaesthesia-high quality video clips and animations so you can see exactly how to administer each anaesthetic agent. Demonstration of every possible kind of injection you would use in the clinical setting—a “test” in the field.
The resource **will be sent to you** by return mail including return postage instructions and packaging.

**MIMS, Therapeutic Guidelines and Australian Medicines Handbook and the Australian Schedule of Dental Services and Glossary**

The paper format of MIMS is no longer available to staff. However the online version is available via the Library online under Drug Information.

Also available are the Therapeutic Guidelines and the Australian Medicines handbook.

Under **Mobile Resources**, you can also purchase MIMS for your smartphone from MIMS.

Mobile access

What is a mobile site?
A mobile (web) site has been optimised for viewing by a mobile device. It usually has a "stripped down" appearance to make it quicker to download and easier to view on a smaller screen. Mobile sites can be accessed from any mobile web browser regardless of the type of device.

What is a mobile resource?
A mobile resource is any resource such as a journal database or point-of-care tool that can be accessed by a mobile device. The resource may or may not have been optimised for viewing on your mobile platform as it may be device or operating system dependent - for example, a resource may be available only as an iPhone app.

This guide is designed to provide an introduction to WA DoH library content, resources and applications that can be accessed using mobile devices such as PDAs, Palm Pilots, Blackberrys and iPads/iPhones.
For the most part, mobile devices that support web browsing can be used to access online library resources, however some have special features that make viewing easier on a portable device.

Important notes:
For technical information and support for your mobile device please consult your manual. Mobile access is not free access. While some products include mobile access as part of the Library’s ongoing subscription, some products such as MIMS, will require additional individual expense to enable mobile access.
All internet-enabled devices can access the library pages and resources, but not all resources are optimised for viewing on a mobile device and some of the features may not be available via your mobile device.
Some resource links will send you directly to a specially developed mobile site, while others will send you to applications to download.
Subscription resources often require that you first register yourself and/or your device.

Remember you can also purchase MIMS for your smart phone.

Need help with anything in the Library?
