Hello and welcome to the August 2019 edition of Dental Health Services Library Newsletter.

We have had a technical issue with our online Journals access from our DHS homepage. Some Journals however do work if you log in from an external source. We are working with the Health Department Library to resolve this matter and I will keep you informed of the progress.

Thank you to the person who left a bag of books for our book swap. If you have any recent fiction books at home that you no longer need please consider sending them in to the Library for our book swap. When you next pass the Library pop in and see if there is any book that catches your eye and take.

**Hint of the month:**
Did you know that you can search for articles on our online Library using PubMed- There is two options:-
1. Click on Journals and under the quick search title select PubMed then enter your subject and press search.
   OR
2. Click on Journals and if you scroll down to the Dental Health Journals at the bottom of the page you can also select PubMed enter your subject and search.

Happy Reading!

Sophie

The branch of medicine concerned with oral health and the diagnosis and management of diseases of the dentition, oral mucosa and related structures and tissues in the maxillofacial area is known as dentistry. Some of the specializations in the science of dentistry are endodontics, geriodontics, oral implantology, periodontology, prosthodontics, oral and maxillofacial surgery, pathology and radiology, etc.

Oral health and medicine / Thomas, Edward (Editor). Foster Academics. USA. 2019. 213 pp. WU113. 401004962

Oral infections and inflammations can affect the overall health of the oral cavity. Dentists strongly recommend the maintenance of oral hygiene for the prevention of oral diseases. General guidelines of ensuring good oral health include brushing twice daily and using flossettes, floss and interdental brushes. Regular checkups for professional evaluation and cleaning are highly recommended. The most common types of dental disease are gum diseases and tooth decay. Limiting the intake of snacks and eating a balanced diet can help prevent periodontal disease and tooth decay.

This text is expanded, revised and updated here, this detailed guide is truly unique, giving accurate metric equivalents and conversion factors for no fewer than 10,000 scientific units with detailed descriptions of over 2,000. It covers the whole spectrum of science, technology and medicine, and deals with US, British, conventional metric, historic and SI units.

New insights into oral health science and dentistry / Martinez, Victor (Editor). Foster Academics. USA. 2019. 203 pp. WU 113. 401004960

This text is the practice of maintaining hygiene in one's mouth by keeping it clean and disease-free. Maintenance of oral hygiene on a regular basis is highly crucial for preventing bad breath and other dental diseases. Dentistry is a branch of medicine concerned with the study, diagnosis, prevention and treatment of diseases and conditions related to the oral cavity. Tooth decay, gingivitis and periodontitis are some of the common oral-hygiene related diseases. Regular brushing is required to prevent oral diseases. Apart from this, interdental cleaning plays an important role in cleaning the space between the teeth. Interdental brushes, floss and flossettes are some of the common tools used for the purpose of interdental cleaning.

The practice of maintaining hygiene of the mouth is known as oral hygiene. It is required to be carried out on a regular basis to prevent dental diseases and bad breath. Tooth decay and periodontitis are two of the most common types of dental and gum diseases. Routine dental treatment includes dental filling, tooth extraction, scaling and root planing, and root canal. Teeth cleaning is an important part of oral hygiene. It includes the removal of dental plaque from teeth in order to prevent gum diseases, deposits of tartar and cavities. This book is a compilation of chapters that discuss the most vital concepts and emerging trends in the field of oral health practice.

This text is written by world-renowned pediatric dentists, this easily accessible, well-illustrated reference covers a wide range of oral and dental developmental anomalies in children and adolescents, and includes rare as well as more common conditions. Divided into two parts, the first part is dedicated to normal tissue initiation, formation, and development in the orodental region. The second part offers comprehensive pictorial descriptions of each condition and discussions of the treatment options available.

A set of medical conditions in which the tissues surrounding the teeth exhibit inflammation is known as periodontal disease. Bacteria present in the mouth can infect the tissues around the teeth and cause periodontal disease. Some common symptoms include bleeding of gums, halitosis, swelling of gums, deep pockets between teeth and gums, etc. Periodontal probe is a device used by dentists in order to evaluate periodontitis. A standard treatment to prevent the progression of periodontitis is the use of special instruments to clean the teeth, especially below the gum line. Periodontal disease may be prevented by regular brushing, daily flossing, regular dental check-ups, professional teeth cleaning, etc. The topics included in this book on periodontitis are of utmost significance and bound to provide incredible insights.

**Oral medicine in primary dental care / Lewis, Mike A.O ; Lamey, Philip-John. Springer. Switzerland. 2019. 212 pp. WU 140. 401004965**

This book is an up-to-date guide to the diagnosis and management of the oral and orofacial conditions that may be encountered by dentists in primary care. Now in its fourth edition, the book has been completely restructured to provide a clinical signs and symptoms approach to disease that will enhance the ability of clinicians to establish the correct diagnosis. This is achieved by the lavish use of high-quality colour clinical illustrations that cover the full spectrum of conditions seen most frequently in the dental surgery. In addition, contemporary information on patient management is presented in a clear and reader-friendly style. The book provides the clinician with an extremely useful tool for clinical diagnosis and delivery of the highest quality patient care. The contents are of direct relevance to all members of the dental team, not only in general practice but also in specialist settings.

This text is an introduction to Health Sociology, sixth edition, is the leading health sociology textbook for Australian students. Accompanied by comprehensive online resources with innovative teaching and learning materials, this outstanding teaching text introduces students to the theories, concepts, issues and contexts of health sociology. Reflect questions have been integrated to assist in students’ understanding of the content up-to-date documentaries and films that relate to chapter themes.

**The mouth-body connection : the 28-day program to create a healthy mouth, reduce inflammation, and prevent disease throughout the body / Curatola, Gerald P ; Reverand, Diane. Center Street. New York. 2017. 308 pp. QU 145. 401004967**

The mouth acts as mirror and a gateway and reflects what is happening in the rest of your body and the health of your mouth appears to have a profound impact on the rest of your body. Chronic, low-grade oral disease is a major source of inflammation throughout your body, which can sometimes result in serious systemic problems, including cardiovascular disease, type 2 diabetes, obesity, and premature birth. This text educates the reader on the natural ecology of the mouth. The oral microbiome consists of communities of 20 billion microorganisms of more than six hundred types-keeping these communities balanced is the key to well-being.

A selection of library e-Books available via our DHS Online Library site

(instructions for access on following page)

- Cleft lip and palate treatment: a comprehensive guide
- Craniofacial disorders orofacial features and peculiarities in dental treatment
- Glossary of dental Implantology
- Waxing for dental students
- Journal of Prosthodontics on complete and removable dentures
- Journal of Prosthodontics on complex restorations
- Dental Morphology for Anthropology: an illustrated manual
- Essentials of human disease in dentistry
- Restoring with flowables
- Biocompatibility of dental biomaterials
- Diagnostic imaging: oral and maxillofacial e-Book
- Pharmacology and Therapeutics for Dentistry
- Pediatric Dentistry
- Antibiotics and Antiseptics in Periodontal Therapy
- Topics in Dental Biochemistry
- Orthodontics
- Clinical Outline of Oral Pathology
- Integrated Clinical Orthodontics
- Implants in Clinical Dentistry
- Implant Dentistry at a Glance
- Fluoride and the Oral Environment
- Improving Access to Oral Health Care for Vulnerable and Underserved Populations
- Clinical Textbook of Dental Hygiene and Therapy
- Atlas of Oral Implantology
- Problem Solving in Endodontics
- Treatment of Periodontal Disease
- Orthodontics
- How to Succeed at eLearning
- Behavior Management in Dentistry for Children
- Behavioral Dentistry
- Basic Guide to Medical Emergencies in the Dental Practice
- Clinician's Guide to the Diagnosis and Management of Tooth Sensitivity
- Dental Nursing
- Bell's Oral and Facial Pain
- Clinician's Guide to the Diagnosis and Management of Tooth Sensitivity
- Mineralized Tissues in Oral and Craniofacial Science: Biological Principles and Clinical Correlates
- Endodontic Pain: Diagnosis, Causes, Prevention and Treatment
- Dental Fear and Anxiety in Pediatric Patients: Practical Strategies to help children cope
- Basic Guide to Oral and Maxillofacial Surgery
- Clinical Oral Anatomy: A Comprehensive Review for Dental Practitioners and Researchers
- Diagnosing Dental and Orofacial Pain: A Clinical Manual
- Dental Public Health: A Primer
- Avoiding and Treating Dental Complications: Best Practices in Dentistry
- Craniofacial and Dental Developmental Defects: Diagnosis and Management
- The Dental Pulp: Biology, Pathology, and Regenerative Therapies

**e-Books are available through our website**

An "eBook" or "electronic book" is a digital version of a book. It can be downloaded to a computer, desktop, laptop or Tablet PC or in some cases, to a PDA device. Different readers may be required depending on the e-book format.
How to access an eBook when off-site.

To download a book title; firstly enter website via: https://dohlibrary.health.wa.gov.au/dental, then select:

Books and AV Resources

Select E-Books from the dropdown box - our list of e-books will be displayed.

View the list and select your title. i.e. The Fearful Dental Patient.

The e-book cover will be displayed (contd. next page).
Click the title under the Table of Contents i.e. The Fearful Dental Patient.

The e-book's first page will be displayed.

Use the forward and back arrows or the side slide to turn your page or jump pages.

(contd. next page)
Your page will be displayed:

Using the side menu you can print, save or even email pages.
Now available in the Library:

Guillotine (in-house use only)

Spiral Binder (in-house use only)

Projector; Projector screen; Bluetooth speaker; DVD external hard drive (available to borrow)

Intra-Oral photographic mirrors (available to borrow)

Intraoral Mirrors are titanium plated, front surface glass mirrors. Front surface coating ensures that there are no double or "ghost images". Rear surface mirrors give you a reflected image as well as a "ghost image" reflected off the glass. The mirrors reflect the light from the flash to fully illuminate the field being photographed.

The Library book-swap and DVD exchange

Why not try our book-swap service situated in the library. Clean out all those items at work/home taking up space and collecting dust…. send or bring them into us! Next time you pass by the Library have a look at what might catch your eye to swap.

YES.....IT’S YOURS TO BROWSE, MAKE A SELECTION OR SWAP FOR SOMETHING MORE TO YOUR LIKING!
Library cards (no longer distributed):

As part of the electronic library upgrade the library will no longer produce library cards.

If you have not registered for the library and would like to, complete the form below and email to us.

Alternatively, if you have registered for the library and do not know your borrowing number contact the library and this will be emailed to you.

Below is the New Borrowers Registration Form, also available on the DHS Website.
Joe’s epic breakfast adventure : superhero foods versus zombie foods / Tartaglia, Jennifer. Foodbank. Western Australia. 2016. 36 pp. WU 113.6. 401004974

Joe is just a regular kid who loves to eat Zombie Foods like take aways, chips and lollies. Come on an adventure with Joe as he is magically transported into the fridge world. Will Joe uncover the rotten Zombie Food secret before it is too late? Will he escape the creepy Body Monsters? Luckily, Joe meets the Superhero Foods who have the power to fight off the nasty Body Monsters and keep him strong and healthy. But it is up to Joe to make the right choices so he can be energised and strong – ready to take on any challenge.

Library feedback

Do you have a suggestion for library purchases or any other information that would benefit the service to all library users?

Email us on DHS.Library@health.wa.gov.au

We would really appreciate your input into your library.
How can I access the Library electronically at work?

- Open the DHS home page
- Select Library online
- Enter your he number and password
- The Library guide will open
- From the blue menu make your selection

How can I access the Library electronically at home?

- Save this link to your favourites for future use
- Enter your he number and password
- The Library guide will open
- From the blue menu make your selection

How can I borrow a book?

1) Email the Library DHS.Library@health.wa.gov.au with your:

- 1) **Name:** Julie Jones-Smith
- 2) **Borrower’s card number:** i.e. 101000020
  (Forgotten this number? Email the library)
- 3) **The item’s barcode:** i.e. 601000355

**Barcodes** for all items can be located:

a) Bottom right hand corner of a book,
“How can I borrow a Book” continued....

b) Inside cover of the CD or DVD e.g. 601000355

c) Or using the Online Library catalogue:

Online Library Guide, textbook/audiovisual catalogue titles

- Scroll down to Select your catalogue
- Select the PDF catalogue you wish to open
- Select your title
- Copy this information into an email
Audio Visual Resources

This link will include all the library audio visual resources and a short review of each, available in the one document.

It is available in the Library online website > Books and A/V resources >

The pamphlet is available in a PDF format to either view online or print.

To loan simply email the library with your borrowers number and the barcode of the audio visual item you wish to loan.

The resource will be sent to you by return mail including return postage instructions and packaging.
MIMS, Therapeutic Guidelines and Australian Medicines Handbook and the Australian Schedule of Dental Services and Glossary

The paper format of MIMS is no longer available to staff. However the online version is available via the Library online under Drug Information. Also available are the Therapeutic Guidelines and the Australian Medicines handbook.

Under Mobile Resources, you can also purchase MIMS for your smartphone from MIMS.

Want an even faster Drug Reference access point without having to access the Library site?
Mobile access

What is a mobile site?
A mobile (web) site has been optimised for viewing by a mobile device. It usually has a "stripped down" appearance to make it quicker to download and easier to view on a smaller screen. Mobile sites can be accessed from any mobile web browser regardless of the type of device.

What is a mobile resource?
A mobile resource is any resource such as a journal database or point-of-care tool that can be accessed by a mobile device. The resource may or may not have been optimised for viewing on your mobile platform as it may be device or operating system dependent - for example, a resource may be available only as an iPhone app.

This guide is designed to provide an introduction to WA DoH library content, resources and applications that can be accessed using mobile devices such as PDAs, Palm Pilots, Blackberrys and iPads/iPhones.
For the most part, mobile devices that support web browsing can be used to access online library resources, however some have special features that make viewing easier on a portable device.

Important notes:
For technical information and support for your mobile device please consult your manual. Mobile access is not free access. While some products include mobile access as part of the Library's ongoing subscription, some products such as MIMS, will require additional individual expense to enable mobile access.
All internet-enabled devices can access the library pages and resources, but not all resources are optimised for viewing on a mobile device and some of the features may not be available via your mobile device.
Some resource links will send you directly to a specially developed mobile site, while others will send you to applications to download.
Subscription resources often require that you first register yourself and/or your device.

Remember you can also purchase MIMS for your smart phone.

Need help with anything in the Library?

Contact us. We are here happy to help!
Electronic library access presentation

Want to know something about our electronic library and are too scared to ask?

Want to be part of a group all learning about this together?

Need to fill in an area meeting space?
