Hello and welcome to the November 2019 edition of Dental Health Services Library Newsletter.

To prepare for stocktake I will need all items borrowed to be returned by **Friday 13th December** please, as the 2019 borrowing period for DHS Library will close on this date. The library will be **closed** from **Friday 3 January 2020** and will **reopen** on **Monday 17 February, 2020**. If you would like to place an item on hold, please let me know and it will then be sent to you when borrowing begins in 2020.

Journal articles you may be interested in reading (click on link below). If you would like an email of the British Dental Journal table of contents for issue 9 & 10, please let me know.

Australian Dental Journal:- **Think before you prescribe: how dentistry contributes to antibiotic resistance** S Sukumar, FE Martin, TE Hughes, CJ Adler Version of Record online: 06 November 2019

Community Dentistry and Oral Epidemiology:- **Dental caries experience in children of a remote Australian Indigenous community following passive and active preventive interventions** Jeroen Kroon, Ratilal Laloo, Santhosh K. Tadakamadla, Newell W. Johnson Pages: 470-476 | First Published: 21 July 2019

**Whats new! - Two new titles** added to our **eBook** selection:-

**Common complications in Endodontics** / Jain, Priyanka (Editor)
**Pathogenesis of Periodontal diseases** / Bostanci, Nagihan; Belbasakis, Georgios N (Editors)

This is the final newsletter for 2019….the next edition will be in February. Hoping everyone has a relaxing few weeks ahead: a wonderful Christmas, with 2020 seeing you happy and healthy and ready for work!

Sophie
A/Library Administration Officer

**Management of dental emergencies in children and adolescents / Neuhaus, Klaus W. ; Lussi, Adrian (Editors).** Wiley Blackwell. USA. 2019. 294 pp. WU 105. 401005022

This authoritative manual helps dental practitioners manage potentially stressful situations with children and adolescents while improving their competence in a wide range of urgent pediatric situations. An emphasis on managing the therapeutic demands of both younger patients and their parents enables readers to have greater confidence in handling demanding emergency situations in daily practice. An expert team of contributors explain how to manage tooth substance loss, endodontic problems in deciduous teeth, the long-term consequences of early tooth loss, the dental issues related to oral health, and more.

**Mandibular suction-effective denture “the professional” - clinical and laboratory technique for class 1/11/111 with aesthetics / Abe, Jiro; Iwaki, Kenji; Sudo, Tetsuya; Kokubo, Kyoko.** Quintessence. Japan. 2019. 186 pp. WU 530. 401005020

This book presents the fundamentals of removable denture prosthetics and the Biofunctional Prosthetic System (BPS) in an easy-to-learn clinical technique.

Covering both emerging and proven techniques in this dynamic area of oral health. This is the only textbook that guides you from basic anatomy and function to providing solutions to many common occlusal and TMD problems. Clear descriptions and a new full-color design promote a complete understanding of normal, abnormal, and dysfunctional occlusal relationships and masticatory function and dysfunction. A recognized industry-standard, this book's conservative, cost-effective approach, helps you learn how to achieve treatment goals while keeping the best interests of your patients in mind.

This new edition provides in-depth coverage in many areas, such as the structure of the dental profession; an update of the current, available NHS dental services; information on extended duties for dental nurses; legal and ethical issues; health and safety including COSHH and waste disposal legislation updates; general anatomy and physiology; and medical emergencies.

This book examines the current state of knowledge on why implant failures occur, makes specific recommendations for prevention of failure, and emphasizes the role that maintenance plays in increasing the probability of success. Current recommendations for the treatment of ailing implants are also reviewed. Prevention begins with appropriate patient selection and treatment planning, correct implant placement, and effective prosthetic rehabilitation. All of these aspects are thoroughly discussed. The specifics of maintenance therapy for patients with dental implants are then addressed, bearing in mind that patients on a regular maintenance schedule following completion of active therapy have fewer implant complications.

Titans of dentistry : how the top performers think and act differently / Short, Justin ; Maloley, David. Soapbox books. USA. 2018. 302 pp. WU 061. 401005021

This book is a quest to discover what separates top performers from the average dental practitioner. Each of the 39 interviews is jam packed with the secrets to success from real dentists. Titans of Dentistry will teach you how the top performers think and act differently so you can too.

This book is ideal in educational and clinical settings. This portable text features a user-friendly outline format that is easy to digest, along with summary tables and boxes, clear illustrations, step-by-step techniques with photos, and review questions and critical thinking exercises — right when and where you need it. The 5th edition of this chairside reference includes new content on industry best practices along with efficacy in comparison to other methods of sedation. Now with new and updated artwork, this unique text continues to be the resource for students, instructors, and practitioners alike.

Although most orthodontic curricula provide courses on interdisciplinary orthodontic-periodontic treatment, there are still surprisingly few resources on the topic. Written by leading scholars in the field, this book provides a broad analysis of the topic from both the periodontal and orthodontic perspectives. The authors systematically analyze the scientific and clinical interactions of these specialties by reviewing all the available evidence and using case studies to demonstrate principles discussed in theory. The result is a text that outlines the treatment fundamentals and shows how to improve the therapeutic outcomes involving orthodontic-periodontic interventions.

Well-executed cavity preparation remains the primary hallmark determining the success of indirect restorative procedures. This book details the basic principles and sequencing of cavity preparation and outlines the different preparation designs indicated for a variety of clinical situations. With a focus on biologic care, preservation of tooth structure, and precision, the author provides special guidance on incorporating these principles into daily practice, and the sections on instrumentation underscore how to improve clinical dexterity and concentration.

This beautiful atlas conveys not only the practical knowledge of dental anatomy but also the art of sculpting it in wax. The ideal anatomy of each dental structure is described in detail and the waxing techniques are beautifully illustrated step by step for visual reference. The author demonstrates that for every morphologic feature there is an explanation in nature, assigning significance to every minute feature of dental morphology. Organized by tooth and arch, this book views morphology through a clinical lens and repeatedly draws connections between anatomical features and clinical concepts. The fundamental knowledge presented in this text is essential for improving waxing and sculpting techniques and will be useful for students and specialists alike.

A selection of library e-books available via our DHS Online Library site

Please click on link below for the full list of eBooks available

[012 GENERAL LIBRARY BUSINESS\05 catalogues\eBook 2019 catalogue.pdf]

e-Books are available through our website

An "eBook" or "electronic book" is a digital version of a book. It can be downloaded to a computer, desktop, laptop or Tablet PC or in some cases, to a PDA device. Different readers may be required depending on the e-book format.

How to access an eBook when off-site.

To download a book title; firstly enter website via: https://dohlibrary.health.wa.gov.au/dental , then select:

Select E-Books from the dropdown box - our list of e-books will be displayed.

View the list and select your title. i.e. The Fearful Dental Patient.
The e-book cover will be displayed (contd. next page).

Click the title under the Table of Contents i.e. The Fearful Dental Patient.

The e-book’s first page will be displayed.
Use the forward and back arrows or the side slide to turn your page or jump pages. (contd. next page)

Your page will be displayed:

Using the side menu you can print, save or even email pages.
Now available in the Library:

Guillotine (in-house use only)

Spiral Binder (in-house use only)

Projector; Projector screen; Bluetooth speaker; DVD external hard drive (available to borrow)

Intra-Oral photographic mirrors (available to borrow)

Intraoral Mirrors are titanium plated, front surface glass mirrors. Front surface coating ensures that there are no double or "ghost images". Rear surface mirrors give you a reflected image as well as a "ghost image" reflected off the glass. The mirrors reflect the light from the flash to fully illuminate the field being photographed.

The Library book-swap and DVD exchange

Why not try our book-swap service situated in the library. Clean out all those items at work/home taking up space and collecting dust…. send or bring them into us! Next time you pass by the Library have a look at what might catch your eye to swap.

YES.....IT'S YOURS TO BROWSE, MAKE A SELECTION OR SWAP FOR SOMETHING MORE TO YOUR LIKING!
Library cards (no longer distributed):

As part of the electronic library upgrade the library will no longer produce library cards.

If you have not registered for the library and would like to, complete the form below and email to us.

Alternatively, if you have registered for the library and do not know your borrowing number contact the library and this will be emailed to you.

Below is the New Borrowers Registration Form, also available on the DHS Website.
Color in dentistry: a clinical guide to predictable esthetics / Chu, Stephen J; Sailer, Irena; Paravina, Rade D; Mieleszko, Adam J. Quintessence Publishing Co. Hanover Park, IL. 2017. 246 pp. WU 507. 401005042

Predictable shade matching in dentistry remains a significant challenge for clinicians in daily practice. Color is an important aspect in the esthetics of teeth and dental restoration fabrication, and color discrepancy can mar restorative results, even when other aspects (marginal fit, occlusion, and morphology) are adequate. This book provides step-by-step protocols to help dental professionals accurately match, communicate, and reproduce the color of teeth and gingiva. These authors demonstrate how to implement color science in simple problem-solving instructions for predictable esthetics in both clinical protocols and laboratory techniques. An extensive presentation of clinical cases is included to illustrate the use of recommended protocols in general practice.

Library feedback

Do you have a suggestion for library purchases or any other information that would benefit the service to all library users?

Email us on DHS.Library@health.wa.gov.au

We would really appreciate your input into your library
How can I access the Library electronically at work?

- Open the DHS home page
- Select Library online
- Enter your he number and password
- The Library guide will open
- From the blue menu make your selection

How can I access the Library electronically at home?

- Save this link to your favourites for future use
- Enter your he number and password
- The Library guide will open
- From the blue menu make your selection

How can I borrow a book?

1) Email the Library DHS.Library@health.wa.gov.au with your:
   - 1) **Name:** Julie Jones-Smith
   - 2) **Borrower's card number:** i.e. 101000020
     (Forgotten this number? Email the library)
   - 3) **The item's barcode:** i.e. 601000355

**Barcodes** for all items can be located:

- a) Bottom right hand corner of a book,
“How can I borrow a Book” continued....

b) Inside cover of the CD or DVD e.g. 601000355

c) Or using the Online Library catalogue: Select Books and AV Resources and from the drop down menu select Print books & AV resources

- Scroll down to select your catalogue
- Select the PDF catalogue you wish to open
- Select your title
- Copy this information into an email
Audio Visual Resources

This link will include all the library audio visual resources available in one PDF document.

To loan simply email the library with your borrowers number and the call number of the audio visual item you wish to loan.

The resource will be sent to you by return mail including return postage instructions and packaging.
The paper format of MIMS is no longer available to staff. However the online version is available via the Library online under Drug Information. Also available are the Therapeutic Guidelines and the Australian Medicines handbook.

Under Mobile Resources, you can also purchase MIMS for your smartphone from MIMS.
**Mobile access**

**What is a mobile site?**
A mobile (web) site has been optimised for viewing by a mobile device. It usually has a "stripped down" appearance to make it quicker to download and easier to view on a smaller screen. Mobile sites can be accessed from any mobile web browser regardless of the type of device.

**What is a mobile resource?**
A mobile resource is any resource such as a journal database or point-of-care tool that can be accessed by a mobile device. The resource may or may not have been optimised for viewing on your mobile platform as it may be device or operating system dependent - for example, a resource may be available only as an iPhone app.

This guide is designed to provide an introduction to WA DoH library content, resources and applications that can be accessed using mobile devices such as PDAs, Palm Pilots, Blackberrys and iPads/iPhones.

For the most part, mobile devices that support web browsing can be used to access online library resources, however some have special features that make viewing easier on a portable device.

**Important notes:**
For technical information and support for your mobile device please consult your manual. Mobile access is not free access. While some products include mobile access as part of the Library’s ongoing subscription, some products such as MIMS, will require additional individual expense to enable mobile access.

All internet-enabled devices can access the library pages and resources, but not all resources are optimised for viewing on a mobile device and some of the features may not be available via your mobile device.

Some resource links will send you directly to a specially developed mobile site, while others will send you to applications to download.

Subscription resources often require that you first register yourself and/or your device.

**Remember you can also purchase MIMS for your smart phone.**

**Need help with anything in the Library?**

Contact us. We are here happy to help!
